Professional Summary:

Versatile and ambitious Electronics and Telecommunication Engineering student in the third year at PVPIT College, SPPU University, Pune. With a solid academic foundation and a keen interest in programming and technology, I am committed to contributing innovative solutions in the field of electronics. My academic achievements, combined with practical skills gained from online courses and hands-on projects, position me as a dynamic and proactive individual.

Education:

- Bachelor of Engineering in Electronic and Telecommunication
-[PVPIT College, SPPU University], [Pune, India]
- Currently in 3rd Year
- Higher Secondary Education (12th):
-[Gorkhshay Higher Secondary School], Aurangabad
- Completed with 86% (HSC) 2019
- Secondary Education (10th):
-Sarswati High School, Aurangabad.
- Completed with 79% (SSC) 2021

Technical Skills:

- Core Java: Completed online course from Nareshit Tech, Hyderabad (Duration: 2 to 3 months)
- HTML and CSS: Completed course
- Basic knowledge in Python, C, and C++

Knowledge:

DBMS, Computer Networking, Digital Circuit, Electric Circuit, Microprocessor, Microcontroller, and Signal and System

Projects:

- Developed a robot using MATLAB, C++, and Arduino kit, showcasing a practical application of programming and electronics skills.
- Created a small website using HTML and CSS, demonstrating web development capabilities.
- Managed kits in Digital Communication Lab, displaying hands-on experience with communication systems.
- Familiarity with MPLAB X IDE for PIC microcontroller, emphasising an understanding of microcontroller programming.

Additional Skills:

- Strong analytical and problem-solving skills.
- Excellent communication and teamwork abilities.
- Creative personality
